SUMMARY:

Full stack web developer with expertise in front-end and back-end web development, experienced in building scalable web applications and collaborating with cross-functional teams.

TECHNICAL SKILLS

- **Frontend -** HTML, CSS, JavaScript, React.js, Tailwind CSS
- **Backend -** Node.js, Express.js, REST APIs
- **Database -** MongoDB, MySQL
- **Tools -** Git, GitHub, Postman

PROJECTS:

Expense Tracker with AI Financial Assistant

- An AI-integrated expense tracking web application that keeps a record of all your financial operations and helps with financial decision-making.
- Built a full-stack expense tracking application using the MERN stack with CRUD functionality for managing financial transactions.
- Developed REST APIs using Node.js and Express.js and connected to MongoDB using Mongoose.
- Integrated Google Gemini AI to provide spending analysis and a natural-language financial assistant.

SchemeSathi - Smart Government Scheme Finder

- Developed a web application that helps users discover government schemes based on their eligibility and personal information.
- Designed a responsive and user-friendly interface using React.js.
- Implemented an AI-powered chatbot to help users understand relevant schemes and provide information in a simple format.
- Added Hindi and English language support to improve accessibility for users.

EDUCATION

Master of Computer Applications Integrated (MCA Integrated) | [Raja Balwant Singh Management Technical Campus, Agra] [2024-2029]
